STRATEGY

Establishing an approach to develop and grow a mature analytics capability

MANAGEMENT

Providing actionable insights to customers to inform better decision making

ABOUT US

Technomics is an employee-owned consulting firm that specializes in data management, analytics, and technology solutions development. We have over 40 years of experience providing a wide range of decision support services to the Department of Defense, Department of Homeland Security, Department of Energy, the Government Accountability Office, and other Federal departments and agencies. The world needs good analysis, Technomics provides it. Anchored by our core area of expertise in cost estimating and resource analysis, we help our customers understand and overcome challenges and deliver **Better Decisions Faster.**

WE KNOW WHAT IT TAKES

Technomics applies data-driven and analytics-based approaches to produce practical, credible, and defensible results offering actionable insights. We achieve these results by applying multidisciplinary talent, subject matter expertise, proven methods and approaches, and tangible and repeatable assets such as databases and models. We are a respected leader in our field because we invest in finding, developing, and retaining exceptional talent. Our own training institute—the Technomics Training Institute—is an example of our commitment to developing our people's technical competence and career. We do interesting, challenging, and purposeful work that influences important decisions.

WE'RE GROWING

Since our founding in 1984, Technomics has grown steadily to become a leader in our industry. We attract intellectually curious self-starters who enjoy solving challenging problems in a collaborative environment. Our analysts are quantitative, creative, inquisitive, candid, and entrepreneurial. The vast majority of our analysts have engineering, math, statistics, and economics degrees, but we have examples of analysts with other degrees and strong problem-solving skills who have excelled in our profession. Technomics' success is a direct result of employee-owner commitment to technical excellence and innovation in the products and services we deliver to our clients. Find your place at Technomics.

EMPLOYEE OWNERSHIP

As an employee-owned company we provide employees with equity through our Employee Stock Ownership Plan (ESOP) to enable them to share directly in the company's growth and prosperity. All contributions to the ESOP are made by Technomics on an annual & discretionary basis. The ESOP is designed to reward long-term service and is funded entirely by the company. The ESOP is considered a second retirement fund to further safeguard the longterm financial health of Technomics employees and their families. Technomics is committed to our ownership culture and utilizes our ESOP as a form of individual equity compensation.

MAKE A REAL IMPACT

The work we do at Technomics is consistently used by decision makers at all levels of Government and affects the outcomes of real-world policy and projects. Technomicians also have an impact within the company. Our analysts thrive in our collaborative environment and take pride in contributing to Technomics' success in different ways. They can—and in fact are encouraged to—directly affect the future of our employee-owned company by leveraging opportunities to make their mark not just as employees but as owners. What you learn here about being a professional in the consulting field will benefit you in everything you choose to do in the future.
